LEXINGTON.

SATURDAY, FEB. 27, 1836.

The City Printers must exercise their wonted patience. The illness of the printer of the Gazette, from an accidental wound in the hand, and the loss of some of the workmen, who departed in search of better situations, render us unable, today, to give more than half a paper; yet we can say to the City Printers, that due courtesy shall be observed towards them, in due time—and we apprehend, from the number of communications received, that our correspondents will relieve us from much further trouble on the subject of the Charter. But we again ask the City Printers, and, on this subject, their partisans of the Intelligence, do they intend to let their patrons know, through the columns of their papers, what is the late amendment to the City Charter, forced upon the citizens of Lexington, unasked by any, save nine office holders?

The expunging resolutions have been passed by the House of Delegates of Virginia, by a large majority.

STATE CONVENTION.

This meeting, which took place on Monday last, was attended by nearly 300 Delegates. Martin Van Buren and R. M. Johnson were unanimously nominated for President and Vice President. The following gentlemen are appointed Electors:

- 1st District, Chittenden Lyon, of Caldwell
- 2d F. C. Sharp, of Christian.
- 3d Jas. B. Donaldson, of Warren.
- 4th Rhodes Garth, of Wayne.
- 5th Joseph Haskin, of Mercer.
- 6th Gen. Elias Barbee, of Green.
- 7th John Pope, of Washington.
- 8th Patrick H. Pope, of Jefferson.
- 9th Alexander Lackey, of Floyd.
- 10th Ben. Taylor, of Fayette.
- 11th Thomas Marshall, of Lewis.
- 12th Nicholas D. Coleman, of Mason.
- 13th Lewis Sanders, Sr. of Gallatin.

For the State at large—Gen. Thompson Ward, of Greenup, and W. T. Willis, Esq. of Green.

Matthias Flournoy, Esq. of Fayette, and Elijah Hise, Esq. of Logan county, were unanimously nominated for Governor and Lieutenant Governor, respectively. The state of our paper for the present week, will not allow us to be more particular. We shall revert to it again.

From the New York Journal of Commerce we learn that the President's message had reached Paris, and was received with general satisfaction. It was supposed the indemnity money would be paid, on the strength of the message, without waiting for the mediation.

The following is an extract of a letter from Col. Austin, dated Nashville, and which has been politely handed us for publication: "The greatest enthusiasm pervades all ranks and sexes here in favor of the cause of Texas. The Ladies of Nashville have offered to furnish the means of arming and transporting a company of volunteers to Texas; it is now raising and will soon be ready.—This generous and disinterested act of patriotism is worthy of imitation, and will fill a bright page in the brilliant record of female magnanimity and devotion to the cause of liberty, of philanthropy and religion. Such is the cause of Texas, we are contending for the

right of self-government, and of worshipping God according to the dictates of our conscience. Our object is independence. I hope that the great and patriotic state of Kentucky will join their sister states of the South in aiding us—a fine field is presented for the enterprising. This contest once over (and it will soon be over) and Texas will rise and prosper very rapidly."

At a large meeting of the petitioners to the Legislature for relief against the oppressions of the charter of the city of Lexington,

JOHN PECK, Esq. was chosen as Chairman, and JOHN HENRY, as Secretary.

The following preamble and resolutions were unanimously adopted:

Whereas, we are informed that our petition to the Honorable Legislature for a repeal of the charter of the city of Lexington, signed by more than six hundred and fifty citizens, comprising, as we believe, a majority of the voters therein, has been rejected by a committee of the House of Representatives; as was also a substitute proposed in our name and by our authority, for a modification of said charter, intended by us to accommodate all difficulties by conciliating those who might feel a dread of the consequences of a total repeal, and which would at the same time preserve good order, and relieve us from a grievous oppression; which rejection was concurred in by the House, including, as we believed, all the Representatives from Fayette county. And whereas, a proposition for an election by the people, whether the charter shall be repealed or not, is offered by said committee and concurred in by said House, so far as to be ordered to be engrossed and read a third time, and therefore, as we are informed, beyond the stage for amendment, in which bill are contained provisions subjecting the petitioners to restrictions which, however fairly designed by the H. of R. are calculated to place the result in a great degree in the control of our oppressors—Therefore,

Resolved, That we prize as one of the highest rights secured by our constitution, the privilege of peaceably petitioning our rulers for a redress of grievances, a right which presupposes the duty of rulers to hear, examine, and decide upon the truth of such petition, and if found to be well grounded, to redress the grievance complained of.

Resolved, That we consider the charter of the city of Lexington oppressive—in its creation of several unnecessary and expensive offices, which, from their heavy expense and the contingency of the compensation attached to them, add to the burdens of the people, and increase the litigation of the city—in the excessive costs allowed by said charter in the city court, altogether disproportionate to the importance of the business transacted in it—and in the severity of the punishment adjudged against offenders, whether guilty of immorality or disorder, or only of a breach of police regulations; which Draco like, consigns the poor man to the workhouse to disgraceful punishment, as well for throwing chips into the streets as for assailing the person or property of his neighbor.

Resolved, That from the speed and facility with which an important and radical modification of our charter was made at the present session of the Legislature, by which a Mayor with high judicial power, is placed over this city for life, and that too, unsolicited by the citizens and without their knowledge or consent, and wholly irresponsible to them, we did hope that a petition for repeal or modification from at least a majority of the citizens would be more promptly listened to, and granted.

Resolved, That our agent be directed to ask leave of The Honorable Legislature to withdraw the petition above named.

Resolved, That the foregoing preamble and resolutions be signed by the Chairman and Secretary, and published for the information of the citizens.

JOHN PECK, Chm.

JOHN HENRY, Sec'y.

SMALL BANK NOTES.

An act passed the Legislature of Kentucky on the 28th of February, 1835, to take effect one year after its passage, imposing a fine of TEN DOLLARS (recoverable before a justice of peace) on any person or persons, or body corporate, who shall pass, circulate or receive, or cause to be passed, circulated or received, any bill or note of a denomination less than five dollars, which may have been, or may hereafter be issued by any bank incorporated or unincorporated, or by any private banker or bankers, or to receive, or cause to be received, any such notes or bills, in payment of any debt or demand whatever; and payments made in such notes or bills, shall not be deemed or held as a discharge of the debt or demand upon which they may be made, or of any part thereof. By a proviso of the

act, notes of the Bank of the Commonwealth and of the Old Bank of Kentucky, and their branches, are excepted from the operation of the act.

The above comprises the substance of the act to prohibit the circulation of small bank notes, which we publish for the information of the community. The act will take effect on the 1st day of March.—*Maysville Eagle.*

TEXAS.

We have already apprized our readers of the capture of San Antonio and the surrender of the Mexican troops at that place. All the accounts from that country concur in stating that the place was taken by 300 Texans, when it is well known that the Texian army encamped before the place amounted to 7 or 800, we had been at a loss to account for the reason why only three hundred were engaged. The following letter from the brother of the editor of this paper will throw some light upon the subject. It also explains the reason why Col. Milam was the leader in the attack upon that place when it is well known he was not the commander-in-chief of the Texian forces.

Near Cahaba, Ala. 15th Jan. 1836.
DEAR BROTHER:—I have just arrived at this place, direct from San Antonio, Texas, and some few particulars in relation to the storming and capture of that place may not be altogether uninteresting to you. History does not record a circumstance of the same nature, and perhaps never will another.

The Texian troops had been encamped before San Antonio near two months without effecting any thing of importance, save daily skirmishing, in which nothing was lost and little gained. (I must however make an exception of the battle of Concepcion, in which Col. Jas. W. Fannin commanded 92 men when surprised by 400 Mexicans, who lost, as has since been ascertained, 104 killed, and since died of wounds, while the Texian loss was one man killed only.)

The Mexicans had 24 pieces of mounted artillery and 6 unmounted when the attack was made, which was brought on in the following manner. After giving them two months to fortify, the Texian officers decided that it was impracticable and impossible to carry the fort by storm, and had issued orders for the whole army to march at sun down, with the intention of taking up winter quarters at La Bahia, 100 miles to the southward and near the sea coast. It was then about four o'clock, and from the noise in camp it was apparent that a mutiny was on hand.—At the time appointed to move, 300 men marched out and declared their intention of storming the fort that night. Many of the officers made speeches against the project, friends begged and entreated others not to throw away their lives foolishly, &c. &c. All was in vain; no persuasion had any weight; a great many mounted their horses and left the camp, expecting a total defeat. Next morning just at daylight, the 300, firm to their purpose, marched to the attack headed by Col. Benjamin R. Milam, who had been the principal in bringing about this manœuvre. The action was severe until about ten o'clock; the Texans succeeded in getting possession of some large stone houses, in which they remained four days, keeping up a steady fire day and night. On the fifth night an assault was made on the fort itself, and they succeeded in driving the enemy therefrom and from the whole town, with a considerable loss, while the Texian loss was 4 men killed and 15 wounded. Among the killed was Col. Milam, whose loss is severely felt throughout Texas. The Mexicans surrendered all their arms and munitions of war, amounting to 30 pieces of artillery and a large number of small arms, with a large amount of ammunition for both. The Mexicans were about 1200 strong, while the conquerors were not exceeding 300. The main body of Texans were lying within three quarters of a mile, and refused to assist as they expected defeat to the last minute. There is now not an armed Mexican in the country. The above statement is strictly correct; I have a personal knowledge of all the particulars, as I have the honor of being known as one of the 300. I have been in two other land engagements, in one was shot through the foot, &c., in both successful. Mexicans can't stand the rifle.

I am now in this place on business, and shall return to Texas in four days. Your Brother, &c.

MUSTARD SEED.
EVERY Farmer, perhaps, has some ground too rich for most vegetables. This is the very best kind for growing the common small black mustard. A dung hill, if well rotted, is not too rich. It grows well where old buildings have stood. A quarter half an acre of this sort of ground would be well worth cultivating. This much, the feeblest families, perhaps, could do. It would probably, from the experiments I have made, produce at the rate of thirty or forty bushels an acre. It should be sown as early in the spring as the ground can be worked, and when ripe, reaped and laid in hands, and two or three days will dry it sufficiently for thrashing.—This should be done on a sheet laid on some plank or on a thick bed of grass. Care must be taken to sift the trash out before it is put into the wind, or it will carry the seed away. When well cleaned and dried, it will meet with ready sale at about \$3 a bushel, by applying to

SIR LOVELL.
Twelve years old this grass—a beautiful blood bay, black mane and tail,
BY DUROC.
PEDIGREE.
THIS distinguished ed racer was bred by Samuel Purdy Esq. of New York and foaled in May, 1824; he was got by Daner, sire of Eclipse; his dam by the imported horse Light Infantry; his granddam old Messenger, his great granddam by Bashaw, his g. g. granddam by True Briton, his g. g. g. granddam by Sterling.

PERFORMANCE.
On the Union Course, L. I., when 3 years old Sir LOVELL ran a mile against a Divided Colt of C. R. Golden's, three mile heats, and won, distancing his antagonist;—when 4 years old he won the two mile sweepstake, over the Union Course, L. I. beating five good horses. In the fall of the same year he was trained again, and ran the \$200 purse, two mile heats, over the Poughkeepsie course, which he won with ease, beating Hotspur, Timoleon, and a number of other celebrated horses. The night following, his groom foundered him—nothing doing, on the last day of the same month, (October) he won a sweepstake, 3 mile heats, over the New Market Course, L. I., beating Grey Ruman (out of Ariel's dam) and many others. In the winter following, he was sold to a gentleman from Pennsylvania, and was delivered to him on the 1st of April, in covering condition; the contract not having been made good on the part of the purchaser, he was again put in training and commenced walking. On the 6th of April, at the time he commenced training, he was very shy—notwithstanding, on the 12th day of May following, he was entered for the \$400 purse, three mile heats, which he won with ease, carrying 122 lbs., beating the famous mare Ariel, Bachelor and Yankee Maid—time, first heat 5m. 47s.—second heat, 5m. 53s. Taking into consideration the very short time he had been in training (five weeks) this race was considered as one of the best ever run on Long Island, and at once stamped SIR LOVELL as a first rate race horse. In the ensuing week, he ran with Ariel for the \$500 purse, four mile heats, at Poughkeepsie, where he won the first heat in great time, 7m. 50s. considering the state of the course, which was very heavy—the second heat he led the race three and three quarter miles, when he passed him and won the heat—he was then withdrawn. There was no jockeying at the time; it was owing to his want of sufficient training that he lost the race. Two days afterwards, over the same course, he took the \$200 purse—two mile heats—beating Lady Hunter, Maryland Eclipse, and Malton—time, first heat 3m. 51s., carrying 121 lbs. This is great time, considering Lovell run eight miles two days previous, but it was soon forgotten in his superior and almost unequalled time, time of the second heat—which was contested inch by inch in the most spirited style by Sir Lovell and Lady Hunter, and won by Lovell in 3m. 45s.—When it is known that the course is eight feet over a mile, and that the horses carried six-year-old weights, this heat will doubtless be recorded as one of the quickest in the annals of racing. In the following week, he ran a Match Race of two mile heats, over the Union Course, L. I., for \$6,000, with the well known mare Frouette, in which he won the first heat in 3m. 45s. and in the next, distanced his opponents in 3m. 45s. This running four races in the short space of two weeks and only losing a single heat—further comment is unnecessary.

Puffing has become so common with persons who have horses, that I deem it a disgrace to a good horse to say more than what is recorded in the Sporting Registers concerning them, for which, as to SIR LOVELL, the public is referred. Lovell will stand at my stables on the Tate's creek road in Jessamine county, 8 miles from Lexington and five from Nicholasville. Owing to the great number of horses in Kentucky, Lovell will be let to owners at the reduced price of 30 dollars, which can be discharged by \$5 dollars if paid in the season. The season will commence on the 10th of March, and end the 1st of July. All possible care taken with Mares from a distance, but no liability for accidents or escapes. Good pasturage, and grain fed at a small price.

NOTICE TO TRESPASSERS ON THE RAIL ROAD.
IT has become indispensably necessary to put a stop to the using of the Lexington and Ohio Rail Road as a public highway, by persons on horseback. Notice is therefore given, that the penalties of the laws will be rigidly enforced in future, against all trespassers who may ride on the road or its embankments, or drive carts, wagons, or other vehicles thereon. This caution is intended to protect the lives of those who may venture upon the road, as well as the company's property; it being impossible, in some situations, to stop the Locomotive in time to prevent accidents.
The 22d section of the Charter fixes the penalty, for injury done the road, cars or machinery, at Five Hundred Dollars.
The 4th section of an amendatory law, passed February 2d, 1833, enacts, that it shall not be lawful for any person to ride on the Rail Road or its embankments, or to drive thereon carts, or other vehicles; and any person offending herein, shall be liable to be prosecuted and fined before a Mayor or a City, or a Justice of the Peace, in the same manner as is prescribed in other and like cases, for trespass and misdemeanor.

S. J. SYLVESTER,

IN presenting a Medical Journal to an enlightened public, in which we propose advocating a reformation in the science of Medicine, it becomes us to fairly and candidly state the motives which actuate us, and the course we intend to pursue as editors.

As the very favorable reception of the Reformed Practice of Medicine, the success and encouragement of its adherents in every State, its superiority over every other denomination of Botanic Practice—having not only excited the jealousy of those who use vegetable medicines, (known by the title of Thompsonians or Steam Doctors) but also the envy and jealousy of those who use calomel, Tartar Emetic, Corrosive Sublimite, &c., and the last named have undertaken to misrepresent and sink us on the premises assumed by Thompsonians, instead of our own—we have considered it necessary in order to defend the Reformed Practice, to offer to the public the proposed journal.

We are aware of the difficulties to be encountered and the obstacles generally thrown in the way of those who undertake to reform an established custom, or who propose the least variation from preconceived and favorite opinions. We know there are some individuals in all countries who naturally dread any change from what they have been accustomed to, and who shut their eyes, and turn a deaf ear to all evidence that attests the truth to convince them of their error. But when we reflect that we live in an age of investigation and improvement, surrounded by a free, enlightened and liberal minded people, most of whom readily perceive what is calculated to be beneficial to mankind and disposed to encourage the spirit of genius and improvement—we feel much encouraged, and confidently believe that we will receive a liberal assistance from our fellow citizens, in endeavoring to offer to the public the healing art. Whilst improvements have been making in the different arts and sciences, we ask has the science of Medicine been improved so as to lessen the quantity of human sickness? We answer, it has not. What then can be the reason? The sciences of Anatomy, Chemistry, Physiology, &c. have certainly been greatly improved, and yet diseases are more numerous and as fatal as they ever were. It is because Physicians, particularly in the last fifty years, recommend and use mineral preparations, such as Arsenic, Calomel, Blue Pill, Tartar Emetic, Corrosive Sublimite, &c., which they almost exclusively rely upon in the treatment of all diseases, the result of which has been that the science of Medical Botany has been most wretchedly neglected, many valuable citizens lost, and those who survive the effect of such poisons doomed to drag out a miserable existence with injured and frequently broken constitutions. Let it not be supposed that we contend for ignorance, or for the use of those which are the very essence of quackery. We advocate the absolute necessity of an intimate knowledge of Anatomy, Chemistry, Physiology, Medical Botany, and the other associate sciences, in which respect we differ from the other denominations of Botanic Physicians, and the most striking difference between our practice and the common mineral practice, is in the articles used as remedies—they relying on mineral, we on vegetable medicines, which difference is to us irreconcilable, and is the principal extraneous cause in the healing art, in which we propose a reformation.

In order to make our journal generally interesting, we will publish an accurate account of the composition and manner of making Calomel and the other different preparations of Mercury in use, also the whole list of mineral poisons that are given as remedies, and their antidotes. We believe that if people generally knew the ingredients and manner of action of these subtle poisons they would, they would use them.

Rules will be given for the prevention or disease and preservation of health.

The treatment of the diseases of women and children. It is an indisputable fact that many females are rendered feeble and nervous by even a moderate use of Calomel, the Blue Pill or some other disease creating mineral, and many children deprived of a sound constitution through life, by an unusual and improper treatment.

We will repel charges already made against us as Reformers, and such others as may be made, and worthy of notice. Well written communications either for or against the Reformed practice will be cheerfully inserted, and if necessary commented upon.

We will publish an account of many valuable plants, the manner of using them, and the diseases to which they are applicable, in doing which we will expect to furnish our readers with a description of many vegetable productions that are too much neglected, and to which authors have not as yet ascribed their proper medicinal virtues.

Medical essays and the treatment of difficult and interesting cases will frequently find a place in our columns.

A due portion of our journal will be devoted to a defence of the Reformed practice of Medicine, and strictures on the common mineral practice.

TERMS. The Western Medical Reformer will be published on a medium sheet, in pamphlet form, containing 16 columns, two columns on each page, and will be issued on the 1st Monday of each month, at the low price of two dollars per annum, payable on the receipt of the first number. Any person who will obtain five subscribers and become responsible for the same, will be entitled to the sixth copy gratis, or if a company of six remit ten dollars, a copy will be sent to each one.

Editors of newspapers who will insert this Prospectus, (and state under it: that they will receive subscriptions at their offices,) by forwarding a copy containing the name of the subscriber, to a copy of our journal for one year.

Every member of the Reformed Medical Society of the United States is considered an agent for our journal, and requested to act in that capacity. All communications must be addressed to the Editors, Drs. Day & Harries, Richmond, Kentucky—post paid.

The first number will be issued on the 1st Monday in May, if a sufficient number of subscribers be obtained.

lar, Tibb's heirs, &c. defendants, in Chancery. This day came the complainants by their attorney, and on their motion, it is ordered and made known to John Spence and Mary E. Spencer, Thos. Triplett, Margaret C. Triplett, David and Nancy E. Duval, Thomas Tibbs Foustee Tibbs, Willoughby Tibbs and Samuel Tibbs, heirs at law of Willoughby Tibbs, dec'd, and to all unknown claimants of ten thousand acres of land lying on the waters of Big Bone creek in the now county of Boone, entered and surveyed in the name of Isaac Melchor which entry is as follows: "May 11th 1780. Isaac Melchor entered 10,000 acres upon Treasury warrants, in the Big Bone creek, beginning at the fork about 3 or 4 miles above the lick and running up both forks including its branches." That on the Friday next before the last Saturday in May 1836, at the house of Henry Lee in Mason county, the complainants in this cause will take the deposition of said Lee, and on the said last Saturday of May 1836, they will take the deposition of Thos. Young, at his residence in said county of Mason, and of the house of John P. Gaines in Boone county, on the first Saturday in June 1836, they will take the deposition of John Tiedall, for the purpose of perpetuating the testimony of said witnesses in regard to the validity of said claim which said complainants profess to hold, and in regard to the validity of interfering claims. And it is directed that this order be published six times in the Kentucky Gazette and that there be at least four months between the first advertisement and the taking of said depositions.

CAREY'S LIBRARY OF CHOICE LITERATURE.

TO say that this is a reading age, implies a desire for instruction, and the means to gratify that desire. On the first point, all are agreed; on the second, there is diversity both of opinion and of practice. We have newspapers, magazines, reviews; in fine, pamphlets of all sizes, on nearly all subjects, which have severely tried the classes of readers and supporters. And yet, curious as these means of intellectual supply, more are still needed. In addition to the reviews of the day, and passing notices of books, the people, in large numbers, in all parts of our great republic, crave the possession of the books themselves, and details, beyond mere passing allusion, of the progress of discovery in art and science. But though it is easy to ascertain and express their wants, it is not so easy to gratify them. Expensive as the importation of literature, encompassing occupations which prevent personal application or even messages to libraries and booksellers, are so many causes to keep people away from the feast of reason, and the enjoyment of the coveted literary aliment. It is the aim of the publishers of the Library to obviate these difficulties, and to enable every individual, at a small cost and without any personal effort, to obtain for his own use and that of his favored friends or family, valuable works, complete, on all the branches of useful and popular literature, and that in a form well adapted to the comfort of the reader.

The charm of variety, as far as it is compatible with morality and good taste, will be held constantly in view in conducting the Library, to fill the pages of which, the current literature of Great Britain, in all its various departments of Biography, History, Travels, Novels and Poetry, shall be freely put under contribution. With occasional exceptions, it is intended to give entire works, which shall be selected for publication. When circumstances authorize the measure, recourse will be had to the literary stores of Continental Europe and translations made from French, Italian, or German, as the case may be.

Whilst the body of the work will be a reprint, or at times a translation of entire volumes, the cover will exhibit the miscellaneous character of a Magazine, and consist of sketches of men and things, and notices of novelties in literature and art, and a regular supply of the literary monthly and bi-monthly journals of Great Britain and Ireland, in addition to home periodicals of a similar character, cannot fail to provide ample materials for this part of our work.

The resources and extensive correspondence of the publishers, are the best guarantee for the continuance of the enterprise in which they are now about to embark, as well as for the abundance of the materials to give it value in the eyes of the public. As far as judicious selection and arrangement are concerned, readers will, it is hoped, have reason to be fully satisfied, as the editor of the Library is not a stranger to them, but has more than once obtained their favorable suffrages for his past literary efforts.

TERMS. The work will be published in weekly numbers. In stitched covers, each number containing twenty imperial octavo pages, with double columns, making two volumes annually, of more than 520 octavo pages, each volume; and at the expiration of every six months, subscribers will be furnished with a handsome title page and table of contents. The whole amount of matter furnished in a single year, will be equal to more than forty volumes of the common sized English duodecimo books, the cost of which will be at least ten times the price of a year's subscription to the "Library." The paper upon which the Library will be printed, will be of the finest quality used for book-work, and of a size admirably adapted for binding. As the type will be entirely new, and of a neat appearance, each volume, when bound, will furnish a handsome, as well as valuable, and not cumbersome addition to the libraries of those who patronize the work.

The price of the Library will be \$5 per annum, payable in advance.
A commission of 20 per cent. will be allowed to agents; and any agent, or postmaster furnishing five subscribers and remitting the amount of subscription, shall be entitled to the commission of twenty per cent. or a copy of the work for one year.

A specimen of the work, or any information respecting it may be obtained by addressing the publishers, post paid.

Boarding School.

HAVING procured a large and convenient house, near the residence of Mr. Jacob HUGHES, the subscriber will, on the 23d February inst., open a BOARDING SCHOOL, FOR YOUNG LADIES, in which will be taught all the branches of a polite, refined and complete English Education. A new system of instruction will be adopted; one that a short experience has proved to be in strict conformity with the philosophy of the Human Mind; and one that, even partially practised, has been attended with much success. This system contemplates particularly the strengthening and enlarging the mind; a part of education of all others the most important, and to which, in the highest schools, the common systems, even position and the art of Conversation, will receive special attention; it being of little use to be intelligent without being able to use intelligence to advantage. A few small boys will be received, but will be so managed as not to interfere with the other department of the School.

PETER SIMPLE NOVELS.

AT 37 CENTS EACH.
UNIFORM EDITION.

THE great and constantly increasing demand for the novels of Captain Marryat, has induced the subscriber to commence the publication of a new edition of his entire writings, in a new form, and at a reduced price. Several of his works that have not yet appeared in this country will be comprised in this series, which will, when completed, be the only uniform edition of his writings that has yet issued from the press.
The work will be published in semi-monthly numbers at 7½ cents per number. Each number complete in itself, and containing the whole of one of his works, equal to two duodecimo volumes; a title page to each number.
The whole series will be complete in eight numbers, and will form a royal octavo volume containing nearly twelve hundred pages for three dollars.
List of works to be comprised in this edition:
Frank Midway, or the Naval Officer.
Newton Foster, or the Merchant Service.
King's Own.
Peter Simple, or the Adventures of a Midshipman.
Jacob Faithful.
Pacha of Many Tales.
Japhet in Search of his Father.
Naval and Military Sketches.
The first number will positively be issued early in January, and the whole will be completed by the last of April.
The work will be stereotyped, and any of the numbers can be had separate, if desired.
They will be sent by post to any part of the Union, so packed as to defy the friction of the mails. Postage under 100 miles 14 cents per sheet, over 100 miles, 24 cents.
It is almost useless for the subscriber to remark that this is the cheapest work ever offered. The simple fact of the number of pages being near 12 hundred, and the price only three dollars, speaks for itself. The public may look upon this as the commencement of an enterprise to furnish them with works of fiction by the most celebrated authors, printed in a beautiful manner, on fine paper, at a price that will at once defy competition, and place it in the power of every person to possess a library of novels at an extremely low rate. The advantage of transmission by mail is one that will not be overlooked by non-residents of large cities. The subscriber thinks, and he presumes that the public will agree with him, that it is better to issue the works of each author, in series, at a stated price, than to publish a continuous work at so much per annum; for by this arrangement they may subscribe to the works of one author and reject another. Not being obliged to pay for that which they do not want.
A remittance of \$10 will command four copies of the work. Single subscription 3 dollars.
Subscribers to the Lady's Book, or those wishing to become subscribers, will be furnished with the Lady's Book one year, and the set of Novels, for five dollars, in advance, postage paid. Single subscriptions to either work, three dollars.

NOTICE.

THE subscriber having disposed of his interest in the Store of J. Tilford & Co. to Jas. Tilford & W. P. & James M. Holloway, would respectfully solicit for them a continuance of the patronage of his friends.
As it is important that the business of the late firm should be closed as speedily as possible, those indebted either by note or book account, will confer a favor by calling and settling without delay. Mr. J. W. Cochran is authorized to receipt and receive the balances due.
J. TILFORD.

TILFORD, HOLLOWAY & CO.

They expect to receive in a few days, additional supplies of Merchandise, which, with the stock now on hand, will render their assortment full and complete. As they design keeping at all times an extensive stock exclusively for WHOLESALE DEALERS, they would particularly invite calls from that class of purchasers—the same inducements offered as heretofore. They will also continue to keep a well selected stock for retailing.
A continuance of the old custom of the house is respectfully solicited.
Just received, a large assortment of MEN'S BOOTS and SHOES, which will be sold at a small advance. Also, an additional supply of the Anchor Baling Cloth, Nos. 4, 6, and 7—Flowered paper for rooms, passages, &c. &c.
